Re: Site Name: Chicago Department of Streets and Sanitation
landfill
103rd Street and Doty Avenue

Dear Mr. Kitwana:

This letter is in response to your recent inquiry requesting additional information concerning our firm. The firm of Ecology and Environment, Inc. has been retained by the U.S. Environmental Protection Agency under contract 68-01-6692 for the purpose of evaluating candidate sites for the National Priorities List under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA), better known as Superfund.

As part of our evaluation, the U.S. EPA has asked us to perform an on-site inspection of the Department of Streets and Sanitation landfill located at 103rd Street and Doty Avenue in Chicago, Illinois. This inspection will include an interview with representatives from the Department of Streets and Sanitation and the Metropolitan Sanitary District of Greater Chicago, along with a visual inspection of the landfill.

I have attached a copy of the Letter of Introduction provided by the U.S. EPA for Ecology and Environment employees engaged in field investigation work, which outlines the statutory basis for such inspections. Also, attached is a copy of the confidentiality memorandum that all Ecology and Environment employees have signed. So you have a better understanding of the questions we need to ask, I have also attached a copy of the site inspection form.

At this time Ecology and Environment, Inc. would like to set the date for the Site Inspection for June 17, 1986.

If you have any questions, do not hesitate to call.

Sincerely,

Ruth Ann Jacquette
